Model: 2608602488

Manufacturer: BOSCH

EAN: 3165140523042

Product Code: 1604217

R759

The PRO Stainless Steel is a great choice for metalworkers who need a long-lasting grinding disc to use with their mini angle grinders.

The PRO Stainless Steel and Metal Bonded Grinding Disc is a durable and reliable disc you can use to cut stainless steel with your mini angle grinder. The disc uses premium abrasive grains for great results. We reinforced it with a fibreglass net to ensure safer performance. Plus, we made it iron free. This means that if you cut stainless steel only, you don’t need to worry about rust on your workpiece.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
