buildings. With DM series, it delivers powerful engagement from any devices, boost business with real-time updates, data-driven insights and visually appealing content, manage and control devices at anytime from anywhere, and simplify the cable management by connecting a series of displays to a single video output.

Android 11

Powered by smart OS, it offers flexible app integration, seamless OTA updates, and user-friendly controls. Its open ecosystem enables third-party app installations, ensuring smart, efficient, and scalable digital signage solutions.

Landscape and Portrait

The display seamlessly adapts to both portrait and landscape modes, enabling flexible installations in retail spaces, museums, stadiums, and corporate environments while maintaining 4K visual consistency across orientations.

Smart Power

A built-in ambient light sensor automatically adjusts the screen brightness according to current light conditions. This display is Energy Star certified to help you protect the environment and save costs.

500 nits

With 500 nits maximum brightness, the display panels can deliver amazingly vivid imagery maintaining vibrant color accuracy during daytime and nighttime conditions, ideal for high-traffic retail and outdoor advertising environments.

Content Management System

VisionInfo is a cloud-based platform providing end-to-end content management, scheduling, remote updates, and centralized device control. This powerful yet user-friendly platform enables seamless device management and real-time monitoring from any location.

Anti-glare with 25% Haze

The 25% haze panels effectively minimize reflections while maintaining optimal image quality, make sure the critical information are always visible. Additionally, the anti-glare coatings enhance the perceived contrast ratio, delivering a sharper and more vibrant visual experience.

Wireless Screen Sharing

Hisense Share's enterprise-grade native platform enables instant cross-platform casting with low-latency precision. Optimized for dynamic workflows from boardrooms to field operations. Redefining workplace connectivity through secure, smooth screen synchronization.

Captivating 4K Visuals

Featuring 90% DCI-P3 color gamut and 256-zone local dimming, it delivers more accurate color reproduction and superior image quality, offering a more immersive 4K UHD visual experience.
