Roller Mop Extending + Detangling SideReach™ vacuuming ensure edges, corners, and tricky spots are reached and cleaned to a tee.

Ultra-Hygienic Self-Cleaning

The vacuum gives itself a 'hot bath' after cleanup via its 212°F ThermoHub™ roller self-cleaning technology, rotating forward and backward in the base station, removing heavy stains, and neutralizing odors attached to the roller mop.

Climb. Clear. Clean

Aqua10 Roller's ProLeap™ system allows the robot vacuum to effortlessly clear thresholds, door tracks, U-shaped furniture, and steps up to 2.36in.

Sees Better for a Better Clean

Accurately detects obstacles, identifies 240+ objects, and sees dirt in poorly-lit areas for a safer and thorough clean, thanks to its 3D structured light, LED light, and AI action camera.

Hair Tangles? No Thanks

The HyperStream™ detangling DuoBrush features 2 brushes that allow close contact with hard floors for a deeper clean, and efficient picking up of hair up to 11.81in long for zero hair tangles.

Bristled Rubber Brush

Unlock thorough cleaning with the bristled rubber brush designed for hard floors. Its bristled rubber construction leads to full contact, capturing dust and long hair from every nook and cranny.

TPU Rubber Brush

Transform your carpet cleaning with the TPU rubber brush. Its soft rubber design gently glides over surfaces, effortlessly lifting debris, large particles, and pet hair for a thorough clean that revitalizes your carpets.
