

Sharp V731U Standard throw projector 7300 ANSI lumens 3LCD WUXGA (1920x1200) 3D White

Model: XPV731U-W

Manufacturer: SHARP

EAN: 4550556169523

Product Code: 1607311

R112,330

Versatile, Value-driven Performance

A highly economical projection solution, the Sharp V Series combines installation flexibility, low maintenance, and long-life laser performance in a compact, cost-efficient design. Using 3LCD technology, it delivers vivid colour and precise white point calibration with 12-bit colour processing for rich saturation and contrast making it suited for education, corporate, leisure, and simulation environments.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Compatible with existing mounts and lenses, the V Series provides a seamless upgrade path from lamp-based or earlier laser models, maximising assets and reducing costs while embracing next-generation efficiencies.

Sharp's ProAssist software enables easy remote setup and adjustment, while advanced features such as geometric correction, edge blending, and wide lens shift support flexible, precise integration.
