Offers an incredible viewing experience.

The Lenovo D32-40 Monitor efficiently caters to your work-from-home or entertainment needs. Its 31.5-inch screen is big enough for watching movies or viewing multiple documents side-by-side. Its 3-side NearEdgeless VA Panel sports slim bezels that give you expansive views. The monitor displays deep blacks thanks to its 99% sRGB color gamut renders vivid colors, and the Full-HD (1920 x 1080) resolution delivers impeccable details, offering an incredible viewing experience. The 4ms response time allows you to stay competitive at Esports games. Its TÜV Rheinland Eye Comfort and TÜV Flicker Free-certified technologies reduce strain on your eyes by filtering harmful blue light and reducing screen stuttering. Additionally, the Lenovo D32-40 Monitor's anti-glare screen handles screen reflections well,

so that you can continue working even in the most brightly lit room. The HDMI 1.4 and DP 1.2
