

FSP Twins PRO 520W Power Module for PS2 ATX Redundant Twins Pro 500

Model: 9PA5200503

Manufacturer: FORTRON SOURCE

EAN: 4713224523632

Product Code: 1607485

R3,124

Redundant system design and built-in hot swappable modules

With redundancy in mind, the Twin Pro modular system design is more efficient and operates more quietly by distributing the power load between two hot swappable PSU modules. If one unit fails, the second unit takes control of the power load until a replacement is swapped in. Each unit can be hot swapped and replaced without any system down-time offering a seamless and uninterrupted operation.

Black ribbon cable design

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The round black ribbon cable design helps with heat emission effect and extends the life span of the components. The ribbon cable design also offers a cleaner aesthetic and allows for better cable management in custom build systems.

Power cord locking device

The Twins Pro series features a power cord locking device that secures the power cord from acciedntal disconnect helping to ensure stable operation without any system interruptions.

Propreitary user interface software that monitors status in real-time

zThe Twins PRO series can be connected to a USB header and synced with the FSP Guardian software to monitor power input, power output, efficiency, and other internal records in real-time. The FSP Guardian software can warn users when temperatures reaches certain levels by alerting them immediately with warning messages that will update the user with all of the latest information in real-time.

Ideal for home, mail or web server systems

The Twins series is an ATX PS2 size redundant power supply. The Twins Pro does not have front-end brackets, which makes it an deal power solution for a home cloud server, mail server, or a small to medium-sized enterprise (SME) web server.
