

Ubiquiti UVC-AI-Turret-W AI Turret IP Security Camera 360 Degree Night Vision

Model: UVC-AI-Turret-W

Manufacturer: UBIQUITI

EAN: 810084698457

Product Code: 1608729

R10,315

UNMATCHED 4K CLARITY AND ADVANCED AI FEATURES

The Ubiquiti AI Turret Camera delivers stunning 4K resolution, ensuring that every detail is captured with exceptional clarity. Equipped with advanced AI capabilities, this camera excels in smart detections, including face and license plate recognition, as well as identifying people, vehicles, and animals. This level of precision enhances security monitoring, making it easier to track and respond to potential threats.

ROBUST DESIGN FOR ANY ENVIRONMENT

Designed for outdoor use, the Ubiquiti AI Turret is both weatherproof and vandal-proof, boasting an IP66 rating and IK08 impact resistance. This ensures reliable performance in various weather conditions, from heavy rain to extreme temperatures ranging from -30 to 50º C (-22 to 122º F). Its durable aluminum alloy and polycarbonate construction provide added protection, making it a dependable choice for any surveillance application.

COMPREHENSIVE NIGHT VISION CAPABILITIES

Equipped with built-in IR LED illumination, the AI Turret Camera offers impressive night vision capabilities, allowing for clear visibility up to 40 meters (131 feet) in complete darkness. This feature, combined with a wide field of view of 109.9° horizontally, ensures that no area goes unmonitored, providing peace of mind during nighttime hours. The camera's night mode, featuring an IR cut filter, guarantees high-quality images regardless of lighting conditions.

VERSATILE MOUNTING AND CONNECTIVITY OPTIONS

The Ubiquiti AI Turret Camera is designed for flexibility, supporting various mounting options including ceiling, arm, wall, and pendant mounts. Its GbE RJ45 port ensures seamless connectivity, while Power over Ethernet (PoE+) simplifies installation by reducing the need for additional power sources. With a maximum power consumption of just 20W, this camera is energy-efficient without compromising performance, making it an ideal choice for modern surveillance systems.
