Hood for MotionProtect Outdoor protects sensors of the anti-masking system from rain and snow

Snowstorm won’t be a drag

Besides intruders, snow can interfere with the regular operation of the detector. It may stick to anti-masking sensors, block their field of view, and cause a false alarm. Hood protects MotionProtect Outdoor during a snowfall.

Rainfall won’t cause a scene

Anti-masking sensors react to spray paint. But an extended exposure to heavy rain may create interference. Hood protects MotionProtect Outdoor during a thunderstorm to avoid any disturbance related to false alarms.

No need to dismount

Hood can be attached to MotionProtect Outdoor without dismounting the detector from the bracket. The accessory comes with everything you’ll need for installation.

MotionProtect Outdoor

MotionProtect Outdoor detects trespassers on the secured territory. The detector is engineered to protect exteriors of houses, storage facilities, delivery zones, and restricted areas. Using LISA digital algorithm, detector ignores pets and waving branches.
