BCS PG8929 Wireless alarm remote control with 4 buttons

Model: PG8929

Manufacturer: BCS

Product Code: 1608987

R1,178

The **BCS PG8929** is a state-of-the-art **wireless remote control** designed for alarm systems, featuring advanced **two-way communication**. This remote is equipped with **four programmable buttons**, allowing you to send up to five distinct commands to the alarm control panel. Operating at a frequency of **868 MHz**, this device ensures reliable connectivity and signal integrity. Its unique emergency button offers a voice command with a two-second delay, providing enhanced security and control.

Built for durability and longevity, the **BCS PG8929** uses a **CR-2032** lithium battery that boasts a remarkable lifespan of up to **five years**. It features both **audible** (buzzer) and **visual** (LED indicator) signalization to confirm the status of transmissions, ensuring you are always informed. This remote not only fits seamlessly with alarm systems such as **GTI One** (M3 version) and **Pulson Alarm 2.0 4G** with the PulsON EXP-RF module but also withstands a broad **temperature range** from **-10°C to 55°C**, making it a reliable choice for various environments.
