Green Cell PRO power supply unit is the most reliable source of power for your laptop. Made of top quality materials and electronic circuits to make you sure that it will not fail at an important moment.

The professional series PSUs are intended to be efficient and durable. They have been equipped with a full range of electronic protections that provide accurate control of the charging parameters. They will charge your laptop not only quickly but also safely.

The well thought-out design and high quality of the components improve the durability of the charger. An additional mains filter filters the voltage already at the input of the charger, and a larger radiator dissipates heat more efficiently so the charger does not get too warm. All of this makes the

PSU amazingly durable and ensures smooth operation for years.

Green Cell PRO charger will work perfectly regardless of whether you need an extra charger, e.g. for the office or the old one has broken down. The PSU comes complete with a matching power cord to ensure maximum ease of use. Top workmanship quality of the charger is combined the modern and aesthetic appearance.

With a PRO Series charger your laptop will get a new lease of life and they will take care of the environment. Not only by designing durable equipment 'for years' but also by promoting and funding recycling of electronic waste.
