space for your gear, making organization a breeze.

With every purchase you become part of a global movement, supporting local businesses and community leaders in building stronger collection networks for the future. This isn't just a backpack, it's a commitment to positive change, environmental responsibility, and leaving a lasting impact on the world's coastlines and oceans.

Designed for Comfort

Experience comfort that moves with you. Whether you're navigating the daily commute, travelling to the next big meeting, or just out and about, this backpack's ergonomic, padded shoulder straps evenly distribute weight, minimizing strain and maximizing comfort for all-day use. The Targus 15-16" Coastline EcoSmart® Backpack is made to fit perfectly into your life, whatever it throws at you.

SafePort® Sling Protection System

The Targus 15-16" Coastline EcoSmart® Backpack features the SafePort® Sling Protection System, offering superior safety for laptops and other tech. Suspending and snugly securing the laptop, the sling minimizes movement and cushions against impacts, providing enhanced protection for daily commutes and prolonged travel alike.

Making Waves of Change

Your choices make a difference. That's why the Targus Coastline Collection supports local communities by sourcing materials that prevent ocean plastic pollution. By using OceanCycle fabrics and targeting plastic waste near coastlines and waterways,* this backpack contributes to the goal of cleaner water systems. The eco-friendly design incorporates low CO2 materials and is packaged with FSC-certified hangtags, supporting responsible forestry and climate action.

Limited Lifetime Warranty

We're so confident that the Targus 15-16" Coastline EcoSmart® Backpack is made to last, we put a Limited Lifetime Warranty on it. This doesn't just guarantee you're getting the very best quality, it also means that you're contributing positively to the planet by reducing waste.

*Ocean-bound or prevented/diverted plastic is plastic waste recovered from within 50km an ocean coastline or major waterway that feeds into the ocean in a geographic region that lacks formal waste management. Except in the case of a sea, material collected from major waterways may be no further than 200km from the mouth or end point of that waterway.
