Plus, the left-angled Micro-USB connector is great for charging your mobile devices in a car, or for accessing your mobile device while it’s connected to a wall charger or computer.

Provide full charging power to your mobile devices

Different phones and tablets require specific amounts of power to charge efficiently. A phone might only require 1.0A of power while a tablet may need 2.4A of power.

This 30/24 Micro-USB cable is designed to deliver full power to your mobile devices so that all of your devices can charge at the expected speed.

Connect with ease

The left-angled Micro-USB connector lets you connect to ports that are difficult to reach, which is perfect for charging your car-mounted mobile devices. Even while you’re charging your mobile device, you can use it to text, work or game, without the cable getting in the way.

The angled connector also prevents the cable from bending awkwardly or from straining too much to make a connection. It offers a more natural fit at the connection point, preventing unnecessary stress and damage to the cable and device port.

Charge and sync your USB mobile devices

Replace the Micro-USB cable that came with your mobile device, or keep one as a spare while traveling so that your mobile devices will be ready to use while you’re on the road.

The USBAUB1MLA 1-meter cable is backed by StarTech.com’s lifetime warranty for guaranteed reliability.
