performance, comfort and aesthetics.

Set your own rules with the EVO Racing range and its detachable hub: choose wheel rims and paddle shifters of different sizes and shapes, to suit all racing styles.

EVO Racing 32R Leather is compatible with all Thrustmaster bases on PS5 and PS4, Xbox Series and Xbox One, and PC (Windows 10 and 11).

EVO RACING 32R LEATHER: DRIVE ON THE EDGE. SET YOUR OWN RULES.

Round wheel rim (12.6 inches / 32 cm in diameter) with long, curved paddle shifters designed to dominate in rally and other racing disciplines. Set your own rules with the EVO Racing range and its detachable hub, by combining wheel rims and paddle shifters of different sizes and shapes.

EVERYTHING YOU NEED FOR PERFORMANCE

Drive on the edge with EVO Racing 32R Leather, a versatile round wheel rim (12.6 inches / 32 cm in diameter), perfect for rally racing and many other types of racing simulation. Take on the toughest circuits at top speed: thanks to their long, curved shape, the paddle shifters are easy to access in all circumstances and are equipped with magnetic sensors for precise activation.

PERFECT BALANCE

Feel the road directly in your hands whether on asphalt, snow or dirt with this slim and lightweight (2.9 lb / 1,300 g) leather-wrapped wheel rim, providing outstanding comfort and pure sensations. Adjust the thumb button modules according to your preferences, for optimal grip.

PREMIUM, SPORTY DESIGN

Enjoy a high-quality design, employing premium materials including brushed aluminum for the central faceplate, giving EVO Racing 32R Leather excellent rigidity while maintaining its lightweight construction. The wheel rim's leather wrapping, embellished with yellow kryptonite stitching, ensures a durable fit and really lets you stand out thanks to its modern style.

DETACHABLE EVO HUB

Switch up your racing experience with the new EVO Racing range. Set your own rules by combining the detachable central hub with wheel rims and paddle shifters of different shapes and sizes (available at a later date) to dominate any racing circuit in the vehicle and discipline of your choice.

TOTAL CONTROL

Stay in control in your races with the EVO Racing hub's 25 action buttons, including 4 rotary encoders and an ergonomic D-pad. Its 7 LEDs provide racing information and revolutions per minute, allowing you to switch between two modes to adapt to the engine speed specific to different types of vehicles.

MAXIMUM COMPATIBILITY

Access the entire Thrustmaster ecosystem: two Quick Release holders are included, making EVO Racing 32R Leather compatible with all existing and future Thrustmaster Force Feedback racing wheel bases on PS5 and PS4, Xbox Series and Xbox One, and PC (Windows 10 and 11).
