

Hercules Stream Essentials Kit multimedia kit

Model: 4781070

Manufacturer: THRUSTMASTER

EAN: 3362934747282

Product Code: 1610810

R8,801

Hercules Stream Essentials Kit offers the best bundle if you want an XLR audio setup. With the Hercules Stream 200 and the new Hercules XLR microphone, the HXD-700, you will have everything you need to control and broadcast a clear and professional sound. Hercules Stream 200 XLR is an audio controller featuring a built-in sound card, allowing streamers to separate the audio mix that they’re listening to from the mix being played for their audience.

Thanks to this audio controller with a built-in LCD screen, you can manage all your audio sources in real time: games, chat software, music, XLR microphone, game console, second computer, and more! Hercules Stream 200 XLR lets you enjoy a customized experience by individually viewing and controlling the sound level of up to 8 audio track — for you, and for your audience! Instantly enable, turn down, turn up, mute or unmute the sound!

Included with the Hercules Stream Essentials Kit, enjoy 3 months of Voicemod Pro! Have fun with over 140 voices and awesome sound effects directly launched through your Stream 200 XLR!

STREAM ESSENTIALS KIT: THE PRO KIT TO GET TO THE NEXT LEVEL

Take full control of your stream audio, experience a professional voice quality

More than an audio controller, Hercules Stream 200 XLR is also a command center! You'll love using the up to 8 handy assignable action buttons to customize your controls: start your stream, change scenes, change your voice, multiple mute, URL launcher, and more!

The HXD-700 is the new Hercules XLR microphone that will allow you to broadcast a warm and precise voice with the Unidirectional dynamic capsule. It also includes a low cut and mid range boost, with physical toggle activation.

Stop worrying about audio settings, get everything you need to get to the next level. BE LOUD.
