

LevelOne 5-Port Fast Ethernet Switch

Model: FSW-0508TX

Manufacturer: LEVEL ONE

EAN: 4015867109533

Product Code: 1611319

R1,074

LevelOne's FSW-0508TX 5-Port Fast Ethernet Switch combines efficient technology with a unique design. This switch is equipped with 5 10/100Mbps ports capable of reaching the highest bandwidths up to 200Mbps for each port to provide workstations with a congestion-free data pipe for simultaneous access to the server.

Each port of the FSW-0508TX supports an auto-negotiation function that can automatically set the best possible bandwidth when a connection is established with another network device. The store-and-forward switching mechanism ensures that no error packets occur and provide maximum efficiency and stability. With Auto-MDIX function, this switch is expandable by cascading two or more switches together by uplinking directly without cable selection hassle.

Its small and compact size is specially designed to fit in limited-space locations for SOHO or home usage. Users can immediately access any needed features simply by attaching the cables and turning on the power. For instant error detection, the switch is equipped with a full range of LEDs to help you monitor and troubleshoot problems on your network.

- Provides flexibility of 5x 10/100BASE-TX ports
- 10/100Mbps-Full/Half-duplex, Auto-Negotiation, Auto-MDI/MDIX
- Supports 2K MAC address auto-learning and auto-aging
- IEEE 802.3x Flow Control protects against lost packets for reliable data transmission
- Magnetic base for easy placement
- Compact, lightweight design
