Expand your wired home network with the D-Link 8-Port Unmanaged Gigabit Desktop Switch (GO-SW-8G). By connecting the GO-SW-8G to your router, you can add up to seven more computers to your home network with Fast Ethernet connectivity. Add devices like your gaming console, printer, print server, Network-Attached Storage (NAS) or network camera with a simple Ethernet cable.

Compact Design

This Desktop Switch fits virtually anywhere because of its compact size. Its power connector and ports are conveniently located in the rear to avoid messy cables on the desk.

Effortless High Speed Networking

Features easy access auto sensing Gigabit front Ethernet ports with a LED indicator for each port to quickly distinguish link status and activity. The GO-SW-8G switch also supports Auto MDI/MDIX Crossover allowing each port to be plugged directly to a server, hub, router, or switch using regular straight-through twisted-pair Ethernet cables to get you the maximum speed possible for each device connected to your network.

Plug and Play Installation

TheD-Link 8-Port Gigabit Desktop Switch is a Plug-and-Play device that requires no configuration, so setup is simple and hassle-free. But we know that setting up your switch is only the beginning; you can also easily connect multiple computers, share files, music, and video across your home or small office network, or even create a multi-player gaming environment.

D-Link Green Technology

The GO-SW-8G 8-Port Unmanaged Gigabit Switch is part of D-Link’s new series of SOHO devices that make use of D-Link’s Green Technology, providing energy savings, reduced heat, and a longer product life without sacrificing performance or functionality. An energy-efficient power adapter (EnergyStar Level V qualified), minimized use of harmful substances (RoHS compliant), and recyclable packaging make this switch truly environmentally friendly.
