R2,587

High-quality, adjustable document holder with a large surface.

The Q-doc 515 ergonomic document holder ensures that your documents and mobile devices are lying right in front of you in one line between your monitor and keyboard in the perfect viewing angle. This prevents physical discomfort in your neck and back, because you don’t have to bend your neck while reading your documents. This document holder is in seven steps height adjustable, is made of high-quality [sustainable] acrylic material, and an exceptionally large surface even for A3 documents as well as heavy folders. The Q-doc 515 is A great ergonomic accessory for every desk, which supports you to work healthier and to increase your performance at work.

Seven heights.

You can choose the perfect height and angle (12° - 46°) for your documents with the Q-doc 515. This document holder is adjustable in seven positions. Simply loosen the four screws and adjust the Q-doc 515 between 120 mm and 240 mm. This allows you to achieve your perfect viewing height, and

you will automatically sit in an upright position while working.

Large storage surface.

The Q-doc 515 document holder has a large storage surface of 515 mm x 290 mm. This document holder is appropriate for A4 and A3 documents, note pads or heavy files up to a maximum weight of 5 kg. You can also place mobile devices on the surface, like a mobile or tablet to read off digital notes. The useful sliding edge prevents the documents from slipping down.

Space saving.

With the Q-doc 515 document holder you can make proper use of the space between your monitor and keyboard. Reduce desktop clutter and position your documents neatly on the document holder in front of you. The raised bottom edge of 30 mm to 45 mm allows the keyboard to be easily slid under the document holder when not in use. You can easily create a restful visual impression on your desk with the help of the Q-doc 515.

100 % recycled materials.

The Q-doc 515 document holder is produced from 100 % recycled acrylic. For the production was used instead of synthetic monomer, 100 % recycled methyl methacrylate monomer. In turn this sustainable acrylic can be 100 % recycled. With this product you can make a positive contribution to the environment. The life-cycle of cast acrylic can be increased and at the same time the use of raw materials- and the carbon foot-print from sheet production is also reduced.

Transparent design.

The Q-doc 515 document holder seamlessly blends into any office environment with minimalistic design and premium quality clear acrylic. This document holder, produced in the Netherlands, is Dutch design and stands for high-quality and longevity.
