Print super-fast, super-efficient labels for your professional mailing, filing, visitor management, or other labelling needs with the DYMO LabelWriter 550 Turbo label printer. With its unique Automatic Label Recognition, you always know which labels (by size, type and colour) are loaded into the label maker at a glance. You’ll also know how many are remaining, so you'll never run out mid-job. The direct thermal printer replaces the need to buy costly ink or toner, while its optional LAN network connectivity allows multiple users to access the machine. Plus, this high-speed label printer prints up to 45% faster than the LabelWriter 550 model, printing up to 90 labels per minute.*

*Speed based on 4-line address label via USB connection
