R20,034

The SC-T2100 is an entry-level large format printer that allows price conscious users to print technical and CAD drawings in great detail up to 24 inches. It's designed for those who need a professional-level, technical printer that boasts a low total cost of ownership: whether you're a freelance architect or engineer, student, or work in an advertising agency, and need to print accurately, precisely, and reliably.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Smallest footprint

The smallest footprint in the Epson technical printer range. Thoughtfully designed to fit into most environments.

Unique Nozzle Verification Technology (NVT) helps prevent misprints and reduces downtime.

Ease of use

A highly intuitive and easy to use printer, that includes a suite of apps and features to get the user up and running with minimal effort. The SC-T2100 also features a 4.3-inch colour LCD touch panel and allows the user to print directly from a PC, smartphone or tablet device.

Seamless paper change

Change seamlessly between large format 24-inch rolls and up to A3 sheetfed media using Epson Auto Switch.

Accuracy and precision

Print technical, architectural drawings, advertising posters and general office documents in great detail, with ease.

Durable prints

The SC-T2100 uses UltraChrome XD2 pigment inks that are smudge and water resistant.
