

ASUS TUF GAMING B760M- BTF WIFI Intel B760 LGA 1700 micro ATX

Model: 90MB1G50-M0EAY0

Manufacturer: ASUS

EAN: 4711387324547

Product Code: 1616834

R5,630

The TUF GAMING B760M-BTF WIFI takes all the essential elements of the latest Intel® processors and combines them with game-ready features and proven durability. “BTF” means “Back To (the) Future” for a new era for all PC DIY gamers; the BTF series hides its connectors on the underside of the motherboard for clean cable management and a minimalist build appearance.

This motherboard is engineered with military-grade components, an upgraded power solution and a comprehensive cooling system so that it can go beyond expectations with rock-solid performance and marathon gaming.

INTELLIGENT CONTROL

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The TUF GAMING B760M motherboards pack flexible tools to tune every aspect of your system, enabling performance tweaks to expertly match the way you play.

All-Around Energy Efficiency

The Power Saving function contains several settings that can easily optimize power consumption and maximize energy savings. You can enable a CPU power limit, darken Aura lighting, and set the fan profile to a power saving mode. You can also toggle the Power Saver plan that is built into Microsoft Windows.

UEFI BIOS

The renowned ASUS UEFI BIOS provides everything you need to configure, tweak and tune your system. It offers intelligently simplified options for PC DIY beginners and comprehensive features for seasoned veterans.

Armoury Crate

The ASUS-exclusive Armoury Crate software centralizes control of all supported gaming products. A single intuitive interface lets you customize RGB lighting for all compatible devices and link them to Aura Sync for unified illumination. It also displays information from, and enables control of, a growing hardware ecosystem. Armoury Crate also enables easy product registration and features a news section to keep you in touch with the gaming community.

ROCK-SOLID PERFORMANCE

With upgraded power delivery and comprehensive cooling options to fuel the latest Intel CPUs, plus support for DDR5 memory and PCIe 4.0 storage, the TUF GAMING B760M-BTF WIFI is the perfect foundation for your next Intel battle rig.

DrMOS Power Stages

12+1 power stages combining high-side and low-side MOSFETS and drivers into a single package to deliver power, efficiency and stable performance for all compatible Intel processors.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

Six-Layer PCB Design

The multi-layered printed circuit board design quickly dissipates heat around the voltage regulators to improve overall system stability and provide the CPU with more overclocking headroom.

8+4 Pin ProCool Power Connectors

Compared to most power inputs, ASUS ProCool connectors are built to tight specifications to ensure full contact with PSU power cables. The resulting lower impedance helps prevent hotspots and connector failure.

TUF Components

TUF Chokes

Certified military-grade TUF chokes deliver rock-solid power to the CPU, improving system stability.

TUF Capacitors

The TUF 5K black metallic capacitors provide 52% wider temperature tolerance and a 2.5X-longer lifespan than standard motherboard capacitors.

Digi+ VRM

The integrated Digi+ voltage-regulator module (VRM) is one of the finest in the industry, optimized for ultra-smooth and ultra-clean power delivery to the CPU at all times.

Unleash DDR5 With AEMP II

ASUS Enhanced Memory Profile II is an exclusive firmware feature for PMIC-restricted memory modules. AEMP II is based on a CPU and memory module's ability to train the memory chips on your kit, and it presents an optimized clock speed that can effortlessly unleash performance. Built through a flexible training method, AEMP II makes it easy to not only tune the memory above baseline settings but also maintain the stability of system operation, whether getting the most out of

an entry-level module or priming a high-speed kit for ultimate performance.

PCIe 4.0 Support

The two PCIe 4.0 M.2 slots on the topside and one PCIe 4.0 M.2 slot on the underside support up to three 2280 devices and the data-transfer speeds are up to 64 Gbps via PCIe® 4.0, enabling quicker boot-up and app load times with OS or application drives.

Cooler By Design

1. Enlarged VRM Heatsink

The extensive surface area of this heatsink covers the VRMs and chokes to improve heat dissipation.

2. Optimized M.2 Heatsink Design

The two topside M.2 slots have dedicated heatsinks, keeping M.2 SSDs at optimal operating temperatures to ensure consistent performance and reliability.

Comprehensive Fan Controls

TUF GAMING B760M motherboards feature comprehensive fan controls that can be configured via the Fan Xpert 2+ utility in Armoury Crate or via the award-winning ASUS UEFI BIOS.

Connectivity

The TUF GAMING B760M-BTF WIFI reaches new heights of performance potential with the latest version of PCI Express, while an arsenal of USB ports includes four Type-C connections, and Thunderbolt 4 expands compatibility and bandwidth even further.

EASY PC DIY

The TUF GAMING line offers easy setup for all builders. The TUF GAMING Alliance ecosystem grants compatibility, while Armoury Crate has Fan Xpert 2+, hardware info, Two-Way AI Noise Cancelation, RGB options and peripheral settings. This platform has intuitive tools to build and optimize dream rigs.

Optimized Cable Management

The hidden-connector design can be ideal for a first-time builder, because it allows easier cable management and also enhances a build's appearance by presenting neat and clean internals.

*This motherboard is compatible with specific case models.

Build With Confidence

TUF GAMING Alliance is a collaboration between ASUS and trusted PC component brands to ensure compatibility across a wide range of parts, such as PC cases, power supplies, CPU coolers, memory kits and more. With new partnerships and components being added regularly, the TUF GAMING Alliance will continue to grow even stronger.

SafeSlot Core+ & SafeDIMM

SafeSlot Core+ is a reinforced metal sheath added to a PCIe slot to keep a card firmly installed. In addition, the ASUS SafeDIMM sheath is added to support and protect memory modules on select ASUS motherboards, empowering you to insert modules with speed, accuracy and confidence.

ESD Guards

ESD Guards prolong the life of components while preventing damage from electrostatic discharge, providing protection for up to +/- 10 kV of air discharge and +/- 6 kV of contact discharge — greatly surpassing the respective industry standards of +/- 6 kV and +/- 4 kV. Surface-mounted TVS diodes in a dual in-line package help protect your PC from voltage spikes.

TUF LANGuard

TUF LANGuard is a military-grade innovation that integrates advanced signal-coupling technology and premium surface-mounted capacitors to improve throughput, protecting the motherboard from lightning strikes and static electricity.

Stainless Steel Back I/O Panel

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

TUF GAMING motherboards have a corrosion-resistant stainless steel back I/O panel bonded with chromium oxide to provide a lifespan that's three times longer than traditional panels. With this protective feature, TUF GAMING motherboards passed 72-hour salt fog testing, while other brands only passed 24-hour testing.

M.2 Q-Latch

The innovative Q-Latch makes it easy to install or remove an M.2 SSD without the need for specific tools. The design employs a simple locking mechanism to secure the M.2 SSD, neatly eliminating the need for screws.

Removable Captive Screws

Specialized M.2 slot screws reduce the risk of dropping or losing a screw somewhere in your case during M.2 heatsink removal.

Q-LED

The on-board Q-LED troubleshooting lights give PC builders a quick indicator to confirm that key components — CPU, RAM, graphics card, storage devices — are functioning normally during startup.

Clear CMOS

The Clear CMOS button quickly resets BIOS settings to factory default. It can also be used to reboot the PC if incorrect BIOS settings have been selected.

IMMERSIVE GAMING

TUF GAMING B760M motherboards provide a feature-packed high-performance gaming package, with ultrafast networking for smoother online gameplay, pristine audio with positional cues for FPS Gaming, and onboard RGB lighting that syncs with attached gear to personalize your gaming atmosphere.

Two-Way AI Noise Cancellation

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

This powerful ASUS-exclusive utility leverages a massive deep-learning database to reduce background noise from the microphone* and incoming audio while preserving voices. Distracting keyboard clatter, mouse clicks and other ambient noises are muffled so you can hear and be heard with excellent clarity while gaming or during calls.

*An audio splitter (3.5 mm audio jack Y-cable) is necessary when using a 3.5 mm headset.

Realtek 7.1 Surround Sound

The unique audio codec designed in close collaboration with Realtek for TUF GAMING B760M motherboards feature an unprecedented signal-to-noise ratio for the stereo line out, providing pristine audio quality.

DTS Audio Processing

DTS® Audio Processing enhances gaming headset and speaker audio experiences by reducing distortion and by providing deeper bass, so games, movies and music sound better. It also allows you to customize audio settings.

Addressable Gen 2 RGB Header

Three addressable Gen 2 RGB headers will support up to 500 LEDs on Gen 2 RGB devices, empowering Aura Sync to automatically tailor lighting effects across your whole system. The new headers also offer full backward compatibility with existing Aura Sync gear.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
