Model: 333309

Manufacturer: EQUIP

EAN: 4015867227367

Product Code: 1619282

R1,132

The equip power distribution unit is a high-quality and robust product that was developed for the supply of power in data cabinets and ensures safety with its integrated surge protection. The power strip is carefully tested to ensure functionality and reliability. A 1.8m long supply cable and a built-in on/off switch complete the functionality of this power distribution unit. The optimized design also makes it easy to install. The ideal choice for 19" cabinet system installation.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
