Cost efficient. Built to perform

Robust and built to last. Your inkjet printer is ready to set-up and use straight from the box and with the optional high-yield inks offering cost-efficient printing you will see the great value of your printer for years to come. For further support, consider letting us take care of your print with a number of Managed Print Service (MPS) options offering auto supplies replenishment and break-fix services for total peace of mind.

Greener business printing

The HL-J6010DW is designed for businesses in search for an A3 printer with low energy consumption. There is no need to heat a fuser unit, resulting in significantly less energy usage without impacting on print-quality.

Print for longer

With a large paper input of up to 500 sheets as standard, you don’t need to spend as much time refilling the paper tray and can concentrate on your daily office tasks. The 100 sheet multi-purpose tray allows you to use versatile media options up to 220gsm and supports quick and cost effective A3 printing.

Ultra-fast, durable, precision printing

Through years of meticulous engineering design, the new MAXIDRIVE Print Chip redefines printing technology. Ink droplets are ejected into 40 micrometer thick film generating pressure that travels through 1680 individual chambers across a single print chip, delivering ultra-fast, durable, precision printing.
