The Yealink RoomPanel Plus E2 simplifies your meeting room scheduling with its easy-to-use touch screen, allowing you to view meeting details and reserve rooms effortlessly. It integrates seamlessly with platforms like Microsoft Teams, offering a versatile solution for modern workspaces.

NEW PANEL, NEW UPGRADE.

BUILT ON ANDROID 13-BASED & MDEP.

RoomPanel Plus E2 is greater now with powerful upgrades – now you can enjoy smoother collaboration and hardware-backed security to safeguard your data. Powered by Android 13 and MDEP, it delivers faster performance, improved stability, and a user-friendly experience.

ALL PACKED IN

ONE TAP

The RoomPanel Plus E2 is designed for easy viewing and smooth usability in modern workspaces. With its spacious screen, sleek design, and LED status lights, it allows users to quickly check room availability and reservation details.

Running on Android 13, the RoomPanel Plus E2 connects with Bluetooth 5.0, Wi-Fi 5, NFC/RFID, sensors, microphones, and speakers, providing an enhanced user experience—just one tap to get started.

AVAILABILITY

AT A GLANCE

Checking meeting room availability is now effortless with high-visibility, full-RGB LED bars. These bilateral cambered lights display different colors to indicate status, making it easy to see the room's availability from any angle.

CLEAN DESIGN

QUICK INSTALL

With the included brackets and tape, the RoomPanel Plus E2 can be easily mounted at adjustable tilt angles on any surface, such as concrete, glass, wood, and more. Supporting both PoE and DC power, installation is streamlined and free from cable clutter.
