

Thrustmaster TS-XW Racer Sparco P310 Black Steering wheel + Pedals Digital PC, Xbox One

Model: 4460157

Manufacturer: THRUSTMASTER

EAN: 3362934402471

Product Code: 1621503

R9,925

The first milestone of the collaboration between Thrustmaster and Sparco

Thrustmaster presents the TS-XW Racer Sparco P310 Competition Mod racing wheel: the first milestone of the collaboration between Thrustmaster and Sparco. It is the result of a combination of our advanced technologies such as a powerful 40-watt brushless servomotor, Motor Cooling Embedded system and Turbo Power power supply. It is officially licensed for Xbox One® and

Windows®.

Realistic “competition” wheel design

12.4”/31.5 cm in diameter: 1:1 scale replica of the Sparco P310 Competition wheel, with an ergonomic design perfectly adapted for all racing games (GT, F1, NASCAR, Indy, road racing, etc.). Thrustmaster TS-XW servo base, detachable Sparco wheel with metal faceplate and genuine suede leather. ECOSYSTEM-READY.

2 large, wheel-mounted sequential paddle shifters (5”/13 cm tall – 100% metal – tact switch with life cycle exceeding 500,000 activations).

14 action buttons + 1 directional pad with push button function.

1. Official racing simulator for Xbox One® and Windows®

1:1 scale replica of the Sparco P310 Competition wheel (12.4”/31.5 cm in diameter).

2. Brushless Force Feedback system

40-watt brushless servomotor with Motor Cooling Embedded system (patent pending). The motor is able to support intensive use during long hours of e-racing competition without any decrease in performance.

Dual belt-pulley system + metal ball-bearing axle. Up to 1080° adjustable rotation angle.

3. Large, solid and adjustable pedal set

100% metal pedals and internal structure

+ Conical Rubber Brake Mod included

+ 3 fully adjustable pedals

(spacing, inclination and height).

4. Turbo Power power supply

Toroidal shape with finless design: 86% efficiency (vs. 65% efficiency for standard finned power supplies).

Powerful brushless servomotor Force Feedback base

TS-XW Racer motor provides powerful 40-watt brushless Force Feedback and incredible velocity (dynamic torque): from long stall curves (STALL mode) to super-responsive S curves (DYNAMIC mode).

Motor Cooling Embedded system (patent pending): maintains dynamics with the new motor, by ensuring that there is no overheating and while remaining silent.

Built-in official buttons for Xbox One®: Xbox Guide, View and Menu. Switch between the game, system menus, social features, etc.

Rotation angle adjustable from 270° to 1080°!

Field Oriented Control: H.E.A.R.T (HallEffect AccuRate Technology™) provides 16-bit resolution (65,536 values), while the new F.O.C. algorithm dynamically optimizes the response to intense torque demands.

External Turbo Power power supply delivers constant power and massive peak power, to instantly respond to ultra-fast requests from the game. Toroidal-shaped for optimized power efficiency of 86% (with just 14% heat generation), with a finless design. Peak power: 400 watts!

Dual belt-pulley system with metal ball-bearing axle.

Internal memory and upgradeable firmware.

Robust and versatile attachment system, compatible with all mounts (desks, tables, etc.).

Includes: T3PA 3-pedal pedal set

100% metal pedals and internal structure.

Conical Rubber Brake Mod included

(with ultra-progressive resistance at the end of the pedal's travel).

3 fully adjustable pedals (spacing, inclination and height).

Xbox One®-certified embedded software

Official embedded software: the racing wheel is automatically recognized by the Xbox One.

Compatible in the console's menus.

Compatible with all Xbox One racing games supporting racing wheels.
