R2,250

This wireless ergonomic keyboard and mouse combination is an essential companion for the home or office. Simply plug and play to get easy, seamless performance from your devices. The ergonomic keyboard features a full suite of 124 soft-touch keys for accurate, comfortable typing. Comes with a built-in scroll wheel, for easy web browsing and fast, efficient use of software and applications.

The cleverly-designed mouse comes with 6 buttons for easy surfing through web pages and/or large documents, as well as a DPI switch which can instantly adjust sensitivity. Thanks to the ergonomic design and rubberized finishing, the mouse provides right-handed users superior grip and comfort during extended use.

This is a great combo for the home or office, designed to give comfort and convenience over long
