COUGAR Full Tower Case MX600 ARGB, Black

Model: CGR-57C9B-RGB

Manufacturer: COUGAR

EAN: 4710483776663

Product Code: 1623074

R2,867

Be The Storm

Experience a perfect storm of cooling features with full ventilation, strategic filtering and targeted convection guidance. The MX600 RGB raises the bar for compact design: a future-proofed full-tower capacity, versatile GPU orientation, streamlines setup, and efficient cable management... all with just a mid-tower footprint.

Where The Winds Meet

Say goodbye to hot rigs: the MX600 RGB is inoculated against escalating temperatures with full omnidirectional ventilation.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

11% increase

in airflow area provided by square vs circular perforations in grid alignment.

110mm allowance

for PSU compartment height with intake vents provides more airflow for your GPU.

2 angled surfaces

to the front and side direct airflow with precision, cooling your CPU and graphics card where it's needed most.

Burn Notice

Don’t let overheating burn you out of the game: the MX600 cools your rig where it operates at its highest intensity.

140mm x 3

front PWM Panel Fans pre-installed, exceeding the norm for its price range.

9 fan maximum

capacity delivers exceptional, focused cooling power.

The Way of Water

The MX600 RGB supports dual top and front 360mm water cooling options.

Open World

Its front fan bracket design streamlines setup by allowing installation of front fans or water cooling without removing the front panel. The fully detachable top cover offers abundant space for system components, and an easily removable PSU cabin cover lets you install or change without hassle.

Fans or a 360mm water cooling system can be directly mounted on the top cover, securely fixed when reattached.

Shields Up

Five strategically placed filters shield your precious components from being infiltrated by dust. The quick-slide front filter in particular can be accessed without removing the front panel, minimizing contact with airborne particles during maintenance. From the bottom to the top, from the sides to the front, the comprehensive filtration ensures your hardware remains pristine, reducing maintenance and prolonging the lifespan of your PC.

Under New Management

The premium cable management design features cable routing rails and seven Velcro straps for securing unruly cables. A discreet cover keeps everything out of sight for hassle-free organization and provides an immaculate view of the interior.

Days Of Future Past

Stay ahead of the gaming evolution with the capacity of a full tower in a sleek and compact profile.

400mm GPU capacity

with future-proof headroom for anticipated upgrades.

8 slots maximum

expansion allows customization while maintaining smaller footprint.

More Build Options

The MX600 RGB’s support for both vertical and horizontal GPU orientation gives you even more build options, with a GPU support bracket guaranteeing stability. (A Vertical GPU Kit is included for full functionality and convenience at no extra cost.)

Light. Speed.

The MX600 RGB features an integrated universal fan hub that enables seamless coordination of PWM fan speed and RGB lighting. This allows you to control the RGB lighting without the need for software, or synchronize it with motherboard software.

Full House

The MX600 can house up to 4 x 2.5” SSD drives or 3 x 2.5” SSD and 1 x 3.5” HDD

Peripheral Vision

The MX600’s I/O panel includes 2 x USB-A and 1 x USB-C ports.
