The ProLite TW1625LASC-B3PNR is a smart and intuitive 15.6" touch panel PC, designed for high-traffic environments such as meeting rooms, info points, or hospitality spaces. Its 10-point PCAP touch technology with Optical Bonding ensures smooth and precise interaction with reduced glare, while protecting the display from humidity and moisture build-up. Powered by Android 14, and equipped with powerful hardware, it allows easy installation of apps directly on the device - making it a all-in-one solution. Thanks to Power over Ethernet (PoE), both power and data are delivered through a single cable, simplifying installation and reducing additional cables. The integrated NFC/RFID reader enables contactless interaction with compatible tags or devices – ideal for quick check-in to rooms, employee authentication or triggering automated actions such as starting a presentation. The RGB LED bar integrated into the bezel shows the availability of rooms at a glance. With a built-in 5MP camera, microphone, and speakers, the TW1625LASC-B3PNR delivers seamless, modern interaction in any smart space. Additionally, it integrates effortlessly with iiSignage2 , iiyama’s Content Management System (CMS), giving you full control over your messages and advertising, in landscape portrait and face-up position.
