R7,950

An ultra-high-speed home network with Wi-Fi 7

A multi-gigabit home network for the fastest fibre optic connections: The two 10-gigabit connections for WAN and LAN meet the highest requirements for bandwidth and speed. This speed package is rounded off by three 2.5 gigabit LAN ports and Wi-Fi 7 up to 5,760 Mbit/s. The clever FRITZ!OS ensures easy setup and extensive features.

Wi-Fi 7 – the new generation of Wi-Fi with multi-gigabit!

Wi-Fi 7 brings top Wi-Fi speeds and offers even more powerful connections for multiple devices. It's therefore ideal for real-time applications such as gaming, virtual reality or video calls. Wi-Fi 7 is

perfectly integrated into the FRITZ! ecosystem - all wireless devices work together optimally in the Mesh Wi-Fi, supplying you with top speeds. With punctured mode, your Wi-Fi can circumvent interference. Your FRITZ!Box automatically ensures you have the best connection.

The new Wi-Fi 7 standard adapts to your current environment and also works perfectly with all older wireless devices.

Mesh Wi-Fi with FRITZ!

FRITZ!Box supports Mesh Wi-Fi, meaning your videos, music and photos seamlessly reach every corner of your home, apartment or office. FRITZ!Repeater, FRITZ!Powerline or other FRITZ!Box models adopt the settings of the FRITZ!Box at the internet connection and all devices are always optimally connected – automatically and reliably.

With Mesh you enjoy high speeds while surfing, streaming or gaming. Data-hungry applications and breathtaking streaming are now waiting for you – and not the other way around!

Fast fibre optics

With its 10-gigabit WAN port, the FRITZ!Box 4690 is ideal for the fastest fibre optic connections: Simply connect a fibre optic modem and get online at the highest speeds via your fibre optic connection. Of course, you can also use the FRITZ!Box 4690 with a DSL or cable modem.

Speed wherever you look: The multi-gigabit home network

Multi-gigabit at the connection, multi-gigabit in the home network: With an additional 10-gigabit LAN port and three 2.5-gigabit LAN ports, you can connect your bandwidth-hungry devices to the FRITZ!Box 4690.

Making phone calls fun

The FRITZ!Box 4690 has a built-in DECT base station, to which you can register up to six cordless phones; the FRITZ!Fon models are the ideal addition to your FRITZ!Box. You can set up up to five answering machines and manage call lists. You can also sync your online contacts from Google, Apple and more with your FRITZ!Box.

FRITZ!Apps for convenience and smart home

Discover the convenience of Smart Home with FRITZ! – connect FRITZ! Smart Home and third-party devices with your FRITZ!Box 4690 using DECT ULE / HAN FUN technology.

With the FRITZ!Apps you can also use your smartphone to access FRITZ!Box convenience features, make phone calls in the home network and keep an eye on your smart home.

FRITZ!Box for safety's sake

The security concept covers all areas of the FRITZ!Box: secure browsing thanks to the built-in firewall, Wi-Fi that's protected with an individual network key upon delivery, and guest access that lets friends and family access the internet but not your home network. These and many other features make your communication secure.

FRITZ!OS – the genius behind FRITZ!

FRITZ!OS is the smart operating system for all FRITZ! products. It combines ease-of-use with versatile features and comprehensive security. A clear user interface and wizards accompany you every step of the way. Regular updates keep your FRITZ!Box up to date – you can also turn on automatic updates.
