INVADER X

Dominate from Every Perspective

Thanks to its 3mm tempered glass panels installed on the front and side, INVADER X allows you to showcase the style of your build from any angle.

Convenient Cleaning and Installation

INVADER X showcases your build's components and vibrant RGB lighting through bezel-less tempered glass panels. Its sleek design offers convenient visibility, while the magnetic dust filter ensures easy maintenance.

Enhanced Cooling for Better Performance

4 x 120mm pre-installed Reverse Blade fans engineered for air intake from the side and bottom of the system. With its sleek design and captivating lighting effects, INVADER X keeps your system cool and looks awesome while doing it. Extensive testing confirms that this chassis optimizes cooling efficiency, reducing GPU and motherboard temperatures significantly.

Next Gen Ready

The included horizontal and vertical GPU mounting bracket provides flexible configuration options. It supports graphics cards with a length of up to 400mm and 240mm long power supply unit, allowing for high-wattage models. INVADER X offers gamers freedom in their choice of components with lots of room for customization and experimentation.

(PCIe 4.0 Riser Cable only included with specific models.)

Supports the Latest Motherboards

INVADER X provides convenient installation for back-plug motherboards. It adopts a brand-new design with an integrated wiring channel and comes pre-installed with five XPG cable management straps, reserving 36mm of space for cable management. This allows you to easily manage cables and provides a wider installation area for motherboards inside the chassis.

Designed to accommodate various configurations, allowing for a wide variety of storage needs.
