Confidently take CAD, GIS colour reproduction to the next level with a 44-in (1118 mm) printer that delivers powerful security features, high productivity on even the most complex files with the Adobe PDF driver[2], and bright and precise colours.

Dynamic security enabled printer Certain HP printers are intended to work only with cartridges that have a new or reused HP chip or electronic circuitry. These printers use dynamic security measures to block cartridges using a non-HP chip or electronic circuitry. Periodic firmware updates will maintain the effectiveness of these measures and block cartridges that previously worked. Reused HP chips and electronic circuitry enable the use of reused, remanufactured, and refilled cartridges.
