APC mini UPS CP12036LI – Emergency power supply 12Vdc, 36W, Li-ion, protects WiFi, Routers, IP cameras, etc

Model: CP12036LI

Manufacturer: APC

EAN: 731304632399

Product Code: 1626949

R2,029

Protect your WiFi, stay online

The APC Back-UPS Connect is an uninterruptible power supply (UPS) specifically designed to power compatible routers, modems, VoIP systems, baby monitors, IP cameras and other smart home devices during a power outage. This way you keep your WiFi online and stay connected, even during a power outage.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The Back-UPS Connect is a reliable, flexible and affordable 12V DC UPS with lithium-ion battery that guarantees continuity for connected equipment during power outages.

Battery capacity and runtime

With a 7500mAh / 27.75Wh battery, it can provide up to 4 hours* of runtime, depending on the connected equipment. *At a load of 5 Watts.
For a further estimate of the runtime, see the runtime table between the product images.
