Wi-Fi, but smart: In the Mesh the FRITZ! devices work together so that you can enjoy your Wi-Fi: The FRITZ!Repeater adopts the settings from the FRITZ!Box at the internet connection, and Mesh technology steers your wireless devices intelligently to optimize performance – automatically and reliably.

With Mesh you enjoy high speeds while surfing, streaming or gaming. Instead of waiting for breathtaking 4k streaming and your favourite music, your media will wait for you.

Also connected via LAN

With its 2.5-gigabit LAN socket, the FRITZ!Repeater 2700 integrates network-compatible devices into the home network – ideal for IP cameras and game consoles, for example.

Alternatively, the FRITZ!Repeater can be connected with the router via a LAN cable. This means even longer distances can be bridged effortlessly.
