

Thrustmaster TCA Quadrant Airbus Edition Black, Blue Flight Sim PC

Model: 2960840

Manufacturer: THRUSTMASTER

EAN: 3362932915553

Product Code: 1628729

R2,870

Ergonomic replica of the Airbus throttle quadrant, featuring magnetic technology, airliner functions, thrust reverser mechanism and replica controls. Compatible with PC.

Whether or not it’s used in conjunction with the TCA Sidestick Airbus Edition (sold separately), the TCA Quadrant Airbus Edition is a multifunctional throttle quadrant for civil aviation, featuring a variety of functions which can be assigned to a total of 16 action buttons.

You can easily adjust the configuration of the throttle quadrant’s tensioning screw according to your preferences, or the type of game being played.

The thrust levers are accompanied by the famous thrust reverser mechanism. There are also realistic detents ("Idle" / "Climb" / "Flex" / "TO/GA"), as well as 2 “Engine Master” selector switches

ensuring excellent flight control and completely immersive, secure landings.

The TCA Quadrant Airbus Edition features the celebrated proprietary H.E.A.R.T (HallEffect AccuRate Technology) system from Thrustmaster, providing gamers with enhanced realism thanks to the built-in magnetic sensors allowing for up to 16-bit resolution.

This contactless magnetic sensor technology, with no potentiometers, gives the throttle quadrant an unlimited lifespan.

The product is compatible with PC (Windows 10, 8).
