ICY BOX IB-RD3640SU3 HDD enclosure Black 3.5"

Model: IB-RD3640SU3

Manufacturer: ICY BOX

EAN: 4250078186335

Product Code: 1629837

R4,556

Toolless is effortless

...and installed faster. In this enclosure four HDD can be easily mounted into the metal bays and held there. Not even one screw is needed. Thanks to the use of HotSwap and Plug & Play, HDDs can be replaced in a breeze without having to turn off the system or install any driver.

Five modes = Six possibilities

Yeah this is the right math! The controller supports RAID 0, 1, 3, 5 and 10. On top of that, there is always the possibility to switch to Single, so that each HDD will be displayed individually and accessed seperately. Externally, there are two possibilities to connect the enclosure to the computer, the first is via USB 3.0, the second is eSATA, each with its own transferrates.

And yet so simple

Many LEDs indicate regarding connections, if and which interface is used with the HDD as well as activity on the HDD. Additionally, fan information is displayed such as if the automatic fan control is used or which fan speed is set.
