Bloomables by Hatchimals are in bloom. With an exciting double character reveal you can repeat, over 100 sounds and reactions and so many ways to play, Bloomables are a must-have. These magical flowers need your love to bloom. Nurture and shower the flower with the watering can accessory until it glows rainbow, then watch as the petals open, revealing an adorable Hatchipillar inside. Feed your new friend the leaf accessory, cuddle and play. When the antennae turn rainbow, it’s ready to transform. Place your Hatchipillar back inside the flower and the petals close. Enjoy the colorful lights and music until your fluttery friend blooms – the petals open once again, revealing a transformed Puppyfly with colorful wings. Tickle her, sing songs together, tell fortunes by asking Puppyfly questions and so much more. Inside each Bloomables Puppyfly flower, discover 1 of 2 characters, Blossom or Daisy. For even more ways to play, kids can repeat the blooming and reveals again and again. Those who enjoy surprise toys, electronic pets, action figures, dolls, and doll house play will love Bloomables boys and girls toys. Fun birthday gifts for girls and boys or for any occasion. Includes 3 AA batteries. Who will you bloom?
