

Intellinet Fast Ethernet Media Converter, 10/100Base-Tx to 100Base-Fx (SC) Multi-Mode, 2 km (1.24 mi)

Model: 506502

Manufacturer: SONSTIGE

EAN: 766623506502

Product Code: 1631154

R1,609

The Intellinet Network Solutions Fast Ethernet Media Converter was specifically designed to offer the network designer a device for migration from copper-based Ethernet to Fibre Ethernet. Now migration or expansion of existing networks can be achieved with minimum cost and complexity. The converter is completely transparent to the network so the network performs exactly the way it did before - only now it can support both copper and fibre mediums.

Expands the Size of an Existing Network

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Provides fibre connectivity to Ethernet segments, allowing for even further networking expansion between extended workgroups. Also provides building-to-building connectivity without the need for the cost and disruption associated with the installation of additional routers.

Enhances the Distance between Networking Devices

Connecting the converter to fibre segments can further extend distances between networking nodes. This can be achieved by direct connection between the converter and a fibre-based node or networking device.

Cabling Flexibility

Network managers can install fibre cabling anywhere within a network without changing the arrangement of copper-based Ethernet. The compact size of the converter allows it to be easily deployed in any narrow desktop location or to be used in a wall-mount installation. Several converters can be simultaneously installed into a 19"; rack-mountable chassis.
