Leap Forward with WiFi 7

WiFi 7 (IEEE 802.11be) packs all the benefits of WiFi 6/6E and expands several existing WiFi standards to a whole new level, such as 320 MHz bandwidth and 4K-QAM. And it introduces some revolutionary features like Multi-Link Operation. These combined technologies provide beyond fast speeds, extremely low latency and enhanced reliability. You can enjoy unparalleled network experiences in any online battlefield.

The Next-gen Powerhouse

The ROG Rapture GT-BE98 is is powered by a powerful quad-core 2.6 GHz CPU and WiFi chipset, giving it the performance to handle even the most demanding scenarios, such as 10 Gbps WiFi connections, next-gen cloud-based computing, cloud gaming and cloud AI.

Eliminate WiFi Dead Zones

The ROG Rapture GT-BE98 is equipped with eight sturdy external antennas and sixteen powerful internal dipole antenna elements, while each radio frequency chain has an independent high-power amplifier. Four antennas feature a dual-feed design using copper tubes that provide high efficiency and significantly enhanced signal strength. This optimized antenna array ensures better signal isolation for simultaneous transmission and reception at different frequencies in adjacent bands.

Look Cool, Game Cool

Heat can kill performance. The ROG Rapture GT-BE98 features an aluminum plate on the top that is 30% thicker*, an abrasive-blasted nanocarbon layer and a two-centimeter stand. Coupled with a specially designed vent and heat spreader, this router improves airflow with 18% better heat dissipation.

Say goodbye to high ping. The GT-BE98 boosts your PC gaming traffic every step of the way, from your PC gaming port all the way to the game server.

Mobile Game Mode

Prioritize the network traffic of your favorite mobile game, minimizing lag and latency with just a tap on the ASUS Router mobile app.

Easy Game Console Port Forwarding

Using OpenNAT on GT-BE98 couldn’t be easier. Enjoy faster connection speed, shorter lobby wait times and smoother gameplay with legacy game consoles or popular gaming handhelds.

AiProtection Pro

Ever-evolving online threats such as malicious website phishing, webcam hacking or ransomware can result in a loss of privacy and finances. The ROG Rapture GT-BE98 includes commercial-grade AiProtection Pro powered by Trend Micro ™ to shield your network from cyber threats.
