Feel the Beat, In-Game Feats

ROG continues its collaboration with virtual pop star Hatsune Miku with a complete gaming system centered around ROG's sci-fi aesthetics and Miku's signature blue-green, pink-color scheme. The collection combines Hatsune Miku's signature style with superior ROG performance, premium quality, and versatile functionality for competitive gameplay or daily tasks. Products include a motherboard, graphics card, PC case, all-in-one cooler, SSD enclosure, power supply, monitor, and apparels, enabling gamers to create an entire gaming setup that exudes the vibrant Miku aesthetic.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
