Lindy 96W 10 Port USB Charging Station

Model: 73309

Manufacturer: LINDY

EAN: 4002888733090

Product Code: 1637055

R2,530

The Lindy 10 Port USB Charging Station allows charging up to 10 USB devices like tablets or smartphones. Each port can provide up to 5V 2.4A to satisfy the most power hungry devices. If all 10 ports are occupied, the maximum current is 1.8A per port. With its smart charging function, this USB Charging Station can recognise the connected device to automatically adjust the charging current for a fast and safe charge while also providing overcurrent protection to avoid excessive current damaging the device.

Plastic dividers can be assembled and stood on the top of the unit, which allows different widths for different tablets or mobile phone sizes. This product is perfect for use in schools, libraries, hotels, restaurants or any location that uses multiple devices. Country specific power cables are provided for seamless use of the charging station, ideal for global events or integration into installations abroad.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
