## Better Than Cage Nuts

Forget pain and cage nut tools. The /dev/mount is our tool-free alternative to conventional M6 cage nuts—safe, simple, and fast.

## Faster, Safer Mounting

Mount hardware up to 3x faster than with cage nuts. It holds the device in place even before tightening.

## Toolless Installation in Seconds

Clip them in, twist the long hex nuts by hand, and you’re good to go—no sharp edges, no fuss.
