R13,176

The Ultimate Cable Management Solution

The patchbox.one with Fiber Optic cables is the ideal solution for a clean, efficient, and future-ready network rack. Equipped with ultra-flexible, retractable cables made from Corning® ClearCurve® Fiber, it delivers high performance while staying perfectly organized—no excess length, no mess.

High-Speed, High-Flexibility

Equipped with high-performing 1.8m fiber cables the patchbox.one offers seamless performance for enterprise network environments.

Fiber That Goes Further

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

We use bend-insensitive Corning® ClearCurve® Fiber, making our patching system more flexible and durable than traditional fiber.

Organized and Maintenance-Free

All cables can be retracted to your desired length—so you can deploy faster, troubleshoot easier, and stay more organized.

Supports Multiple Connectors

Compatible with LC-LC and LC-SC ports, it’s ready for a wide range of fiber applications and configurations.

Certified for Reliability

Meets ISO/IEC 11801-1:2017 standards and comes with a 10-Year Warranty for peace of mind.

Built to Last, Backed by Warranty

patchbox.one and all cables come with a 10-Year Warranty, delivering reliability you can trust in mission-critical environments.
