Canon imageFORMULA DR-M140II Document Scanner

Model: 6050C003

Manufacturer: CANON

EAN: 4528472111452

Product Code: 1637808

R14,617

Achieve high-speed, high-quality scanning with a compact and reliable device. Embrace updated, intelligent features to streamline workflows and save time.

Boost productivity with a feature-packed device

Satisfy the demands of a paper-intensive, eco-friendly and space limited environment by using the imageFORMULA DR-M140II. Made with up to 20% recycled plastics, it quickly scans a wide variety of documents and deliver high-quality images that can be archived or edited using the intuitive features.

Enhance efficiency

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Save time by scanning a wide range of media formats, including receipts, business and plastic cards or up to 5.5m long documents, with a robust paper separation mechanism and an ultrasonic double feed detection that quickly identifies misfeeds.

Produce high-quality images

Use the latest image processing features to achieve outstanding quality results. Automatically deliver quality images from varying colours, light writing and patterned backgrounds thanks to Active Thresholding.

Maximise space

Save space in the office thanks to its small footprint. Its dimensions make it ideally suited for environments where space is often limited and allow it to be placed under the counter or inside a drawer.

Reduced environmental impact

Minimise your environmental impact using this energy-efficient device made from more than 20% recycled materials and with environmentally friendly packaging.
