R7,387

The P-touch CUBE Pro is the ideal label printer for offices, retail stores and other businesses who require the maximum flexibility when it comes to labelling of shelves, document archiving and assets.

With a built-in rechargeable battery, and the ability to print labels up to 36mm wide from your PC, Mac, iOS and Android devices, the P-touch CUBE Pro is perfect as a label printer for facilities management, office organisation, shop and cafe signage, and many other uses.

Bluetooth connectivity makes cable-free printing quick and easy to setup and use without limitations. To print and charge from your PC or Mac, simply connect the included USB cable.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

A wide range of tape widths, colours, materials and finishes are available to ensure that whatever your labelling requirements, the P-touch CUBE Pro will prove an invaluable asset to your business.

The freedom to print labels directly from your Android and iOS devices

The free Brother iPrint&Label and P-touch Design&Print2 apps connect to your label printer using the Bluetooth connection in your smartphone or tablet. You can edit your labels and then preview before printing.

Why not give them a try by downloading them now to your device?

Search on iPrint&Label and Design&Print2 in the App store or Google Play Store

Simple, elegant design you can carry around your workplace

The P-touch CUBE Pro is easy to carry with you, allowing you to print labels on demand wherever required. Share between colleagues in the workplace or use around your store.

Advanced cutter to make labels easy to peel

As well as a full cutter, the P-touch CUBE Pro can cut through just the top layer of your labels, keeping the backing intact. This makes labels easy to peel and keeps them in the correct order.

Ribbons and durable labels for all your labelling requirements

Brother TZe tape cassettes are available in both durable labels and stylish ribbons. Available in a huge range of widths, colours and styles to suit your needs.

Print labels from your Windows PC or Mac

Brother P-touch Editor label design software gives you powerful editing tools to create the ideal labels for your workplace or shop. Include images such as a company logo, or select from hundreds of built-in clipart, symbols and frames. Include barcodes if needed. Plus, you can also link to text contained in an Excel or .csv file to easily print multiple labels with variable information.

Integrated rechargeable battery

Inside the P-touch CUBE Pro is a small yet powerful li-ion battery that eliminates the need and cost to use standard alkaline batteries, and ensures your label printer is ready for use at any time, with no need to power from standard batteries or an AC adapter.
