Transform your Thunderbolt 5 or USB4 laptop into a high-resolution, multi-monitor workstation

Simplify your workspace with a high-performance dock that supports Thunderbolt 5, Thunderbolt 4, and USB4 laptops. Supports multiple displays up to triple 4K displays, 140W laptop charging, and 2.5G Ethernet, all through a single connection.

Advanced Display and Charging Capabilities

Connect up to three 4K 144Hz displays using a combination of HDMI, DisplayPort, and USB-C outputs or dual 8K 60Hz via HDMI and DisplayPort. The docking station includes an 180W power adapter that can supply up to 140W to charge high-performance laptops such as the MacBook Pro M4. A dedicated 30W USB-C port provides data connectivity and charging for phones or tablets without drawing power from the host computer.

Networking and Compatibility

Enjoy faster cloud access, file transfers, and virtual collaboration with the wired 2.5G Ethernet RJ45 port. Driverless dock is compatible out of the box with Windows 11 and macOS 15 / 26 systems that feature Thunderbolt 5, 4, or USB4 connectivity, helping ensure IT-managed deployments stay efficient and consistent.

Secure and High-Functioning Workspace

Dual security slots (K-Slot and Nano) let you physically secure the dock helping prevent theft in shared environments or high-traffic workspaces. This dock features built-in SD 4.0 and microSD 4.0 card slots for fast transfers from UHS-II-compatible memory cards. A 3.5mm audio jack supports headsets or speakers for seamless conferencing or media playback.

Enterprise Management Tools

StarTech.com Connectivity Tools offer practical utilities to support device management and increase productivity in modern IT environments. With features such as MAC address pass-through, Wi-Fi auto-switch, and USB device monitoring, the software helps IT teams streamline deployment and
