Streamline cable management with this under-desk cable organizer tray

This under-desk cable management tray helps keep workspaces organized and free of clutter, reducing the risk of tripping hazards and tangled cords.

Extra-Large Tray

The extra-large tray is 4.1inches (105mm) wide and has additional headspace between the desk and the tray to accomodate larger power adapters or power bars/strips.

Length Adjustable Design

The cable manager tray is length adjustable, offering three different lengths (2.6ft, 3.3ft, and 3.9ft / 0.8m, 1m, and 1.2m) to match the desk size and the distance cables need to be routed. All necessary hardware for length adjustment and product installation is included.

Versatile Setup

This cable organizer works with desks of any material, including wood, glass, and metal, from 0.2inches (5mm) to 2inches (50mm) thick. Cable management slots improve accessibility and enhance workspace aesthetics by keeping cords neatly routed, contributing to better airflow.

No Drilling Required

The organizer tray features a clamp-on installation, allowing for a tool-free setup with no drilling required. This makes it ideal for quick repositioning without damaging the desk. Foam padding protects the desk surface, while rubber on the clamp prevents slipping when attached.

Durable Construction
