CyberPower PDU81005 is protected by a three-year limited warranty.

Power Distribution

Delivers AC power to servers, equipment, and connected devices via a power distribution unit.

Switch-Free Design

Safeguards against accidental power shutdown.

Switchable Outlets

Provides local and remote control for individual and multiple outlets. Local control: turn on/turn off outlets and disable unused outlets. Remote control: restart outlets and devices, turn on/turn off, schedule power on/off sequencing, and disable unused outlets.

Per Outlet Power Metering

Provides information on the amount of power being drawn from each outlet, each circuit and the PDU as a whole.

CyberPower Management Console

A hardware interface built into Monitored and Switched PDUs. Its functionality includes the ability to switch PDU outlets on and off, reboot connected equipment locally or remotely, schedule power cycling of attached equipment, and perform other tasks, such as load monitoring and event logging.

Remote and Local Monitoring

Enables offsite and onsite tracking of PDU vitals; provides outlet control for individual and networked clients.

Automatic Event Notifications

Provide immediate updates about power events via email, SMS text, or SNMP traps.

Upgradeable Firmware

Downloadable improvements (firmware updates) to programs that run the PDU.

Digital Display

Provides easy-to-read information about amperage, voltage, KW, IP address, and other PDU information.

Network-Grade Plugs and Outlets

Highly durable construction ensures the efficient distribution of power in demanding IT or industrial environments to servers, equipment, and connected devices.

Long Input Power Cord

Reaches distant power sources, allowing the PDU to be placed where it’s needed.

Cord Retention Tray

Secures power cords, keeping them organized and accessible. Helps cords stay plugged in.

1U Mounting Brackets

Space-efficient 1U design allows PDU to be installed horizontally or vertically, under a counter or via wall mount.

Durable Metal Housing

Protects internal components and resists damage from impact or abrasions within challenging industrial environments. Also extends the life of the product.

Three-Year Limited Warranty
