Model: 650376

Manufacturer: EQUIP

EAN: 4015867241622

Product Code: 1639343

R2,756

The 32"-60" Dual TV Ceiling Mount is a space-saving, professional display solution designed to support two side-by-side flat-panel TVs or monitors. Ideal for digital signage, advertising and information displays in retail stores, airports, restaurants, lobbies and meeting areas, it accommodates screens from 32 to 60 inches with compatible VESA mounting patterns. Sturdy steel construction provides stability and durability even in high-traffic environments. The telescopic pole and tilt mechanism allow flexible height and angle adjustment, while 360° rotation around the pole and freely angling and swiveling functions help you achieve optimal viewing from different directions. An integrated cable management system conceals and organizes wires for a clean, sleek installation.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
