One dedicated USB Type-C® port supports both 10 Gbit/s data and up to 20 W PD charging. Perfect for charging phones or tablets while staying connected.

LED Display – For charging status

An integrated LED display shows real-time PD output so you can check charging power at a glance. Stay in control of your device's power draw without extra tools.

Durable Wire – braided wire

The braided USB-C® cable resists tangling, fraying, and damage from daily use. Ideal for users who frequently plug and unplug on the go.

Operating System – Windows®, macOS®

Fully plug-and-play compatible with Windows® and macOS®. No driver installation needed, just connect and use.

USB Type-C® hub

Experience comprehensive connectivity with the IB-HUB1450-C31, which offers nine USB 3.2 Gen 2 Type-C® ports for transfer speeds of up to 10 Gbit/s. Connect external storage devices and accessories with ease. Whether you're transferring large files or managing multiple devices, enjoy smooth and reliable data performance.

Power Delivery

Keep your devices powered with the hub’s additional USB Type-C® port, that provides both 10 Gbit/s data transfer and 20 watts PD charging. Charge your phone, tablet, or other devices while maintaining fast data access. Reduce clutter by eliminating the need for multiple chargers.

LED Display

Monitor your power management with the hub’s integrated LED display. It provides clear, real-time Power Delivery (PD) values, letting you check the charging status of your devices at a glance. With
