## **Product Highlights**

The GHE 18V-60 Professional cordless hedgecutter is easy to handle thanks to its ergonomic design. The powerful brushless motor provides continuous trimming for medium-density hedges. With a cutting capacity of 20 mm, you can also cut thicker branches easily and comfortably. When trimming stubborn branches, the patented Bosch Anti-Blocking System prevents the cutting blades from jamming via electronic detection and automatic repetition of the cut. Thanks to its light weight, optimal balance and ergonomic design, the cordless hedgecutter is well suited for longer work. Thanks to the low noise level and emission-free operation, the cordless hedgecutter is ideal for working in residential or other noise-sensitive areas.
