Conceptronic 6-Port 200W GaN USB PD Charger with USB-C Charging Cable, USB-C x 4, USB-A x 2, QC 3.0, PD 3.1, PPS

Model: OZUL06BE

Manufacturer: CONCEPTRONIC

EAN: 4015867236543

Product Code: 1641067

R3,241

The PD 3.1 USB Charger offers efficient and ultra-fast charging with Power Delivery (PD) 3.1 technology. It features a single USB-C port capable of delivering up to 140W of power, perfect for charging devices such as MacBook Pro 16", MacBook Air, Dell laptops, Nintendo Switch, and more. This 6-in-1 charger includes 4 USB-C ports and 2 USB-A ports, providing a total output of up to 200W to accommodate various charging power needs.

Moreover, this GaN 2 charger utilizes gallium nitride (GaN) technology, offering a smaller and more streamlined alternative to traditional silicon chargers. Compared to GaN 1 chargers, it generates less heat, resulting in greater efficiency and more power directed to the device rather than being lost.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

For safety, the charger is protected against overload, short-circuiting, and overheating. It's an ideal all-in-one charging solution for daily use, providing efficient and reliable power delivery for all your devices.
